Gang,

I have been working with Tage to redo our 944 spec paddock area. I have a .pdf map that I will be emailing to each of you. Also I will be there early on Friday to help set-up the guys. Please work with me to find your spots.

Austin & Pete, Dave Hauck and Jim Foxx have the most changes and are the most critical in making change. The changes should still suit your needs, but since you guys are Friday arrivals I need to get you guys set-up first to work the rest of the space.

So an email will be coming out very soon. If all works well this weekend it will be our PIR paddock plan.
