
Mosport PCA race Aug. 1/2/3

Posted by comatb - 2008/07/20 18:55

There will be at least 5 944Spec(SP1) cars at this race. Anyone want to come join us at one of the best tracks?

I would love to race Mosport. I heard it is great course to race. Maybe next year.

How about the PCA race at Miller in at the end of September? We look to have 5+ local SP1 cars ready.

I was thinking of the cars in the Mid-West or others in the East that might be interested in coming.

Hi Eric,

It went well. I qualified first, and won the two Saturday sprint races. My main competition developed a high speed miss that turned out to be a broken valve spring retainer. His second one this year. Ernie had it fixed for the Sunday hour and a half enduro, so I covered my bets by putting the 'Kid' my son Tyler in the car and told him to go for it. He built up a 50 second lead before a late pit stop so I just had the tough job of taking the checkered flag:laugh: .

I'm looking forward to reading your report from Road America. What were the results?

Bill
