

2016 April: Race at AMP (AZ Motorsports Park)

Posted by KDJones2000 - 11 Apr 2016 04:00

Video from the back of the pack, combined SB / BB race group at AMP.

JP Molnar took 944 Spec pole, with Jeff Wojnar second and Keith Jones in P3.

Good start by all, with JP slowly pulling away from the others. A loss of concentration on Lap 4 resulted in a missed brake point and spin for Keith, who was holding off a pesky RX7 up until that time.

The 944 guys came together to fix what turned out to be a computer / AFM issue on Jeff's car at the last minute (always have spares...) just in time for the qualifying session.

As always a good time at the track. Here is the video:
