

Tires and fuel.

Posted by bcc1323 - 03 Apr 2009 22:51

Have a set of cookie cutters with R888's on them for \$400.

The 888's have approx 12 heat cycles on them and are about 10 mos old. They'll be to old by the time I get a car put together so someone might as well get some use out of them. I also have 5 gal of 110 leaded and 5 gal of 50/50 91 and 110. \$40 for 110 and \$25 for the mix. Let me know if you need any of this.
