Wow, that is cheap! Hooked on Driving has a few dates as well. I've never been there so I might do one before the race, assuming I am deemed worthy of a race spot.

Anyone got a stock exhaust from the headers back?

Hey Steve, it would be great if you could make it. The muffler that makes the best power and is Laguna legal is the Turbo muffler from Summit racing. I think it costs \$22.00. Just make sure you order the right inlet outlet size for your car and the other option is side or center in/out.

I have thousands of laps around Laguna and would be happy to share anything I know.
