

r888

Posted by rd7839 - 07 Mar 2011 19:33

Anyone interested in my r888's? I lost track of heat cycles but I think it's around 24. They are unmunted and taking up garage space. Free to good, or not so good home.

Shaved or full tread? How much tread is left?

Might make good rain tires...

They were full tread and have about half left.
