Autoclub Speedway, May 16 & 17
Posted by dancing944 - 29 Apr 2015 11:33

Gang:

Don't forget to sign up for racing in Fontana. We usually have a good turnout for Autoclub Speedway. I'm hoping we can do that again this time.

I'm registered and looking forward to it! I do have a question maybe someone can help answer. I won't be able to have tech done on my car before the race. I have a 2014 NASA tech so hopefully I can get it done at the track?

no problem. They can tech you at track for around 30$.

You can run practice and Qual with old sticker and just get it done during the mid morning at regular tech station in front of garage #2.

Glad you're coming down. You'll enjoy the bank and 5 wide at 120

Track is hard on brakes.

Thanks Jim, sounds great! Also good to know on the brakes so will come prepared.

_____

While the car is ready to go on track, albeit cage free, I don't want to sort the car there, as it is a very specific set up, nor do have the short fifth in my transaxle to run with anyone. Good luck to all, I should be TT at Buttonwillow in June, and racing at the last event in October at BW. I may stop by for the weekend to get some cage pics, since we are going to have to build one ourselves.

_____

Have you considered a Hanksville cage? They sell a pre-notched prefit cage that you just weld together. It looks like a good deal to me considering how much time it takes to do that part of the cage build.

As far as set up goes. 3.5 front 2.5 rear 1/8 toe out front 1/8 toe in rear. You can use this for most tracks.
