90% complete 944spec car with 2 engines Posted by Tabbasco - 22 Mar 2013 06:30
I am sad to sell this project but just do not have the time to complete the task.
The car is lightened and caged >2350 lbs.
1st engine has 67k miles and was running perfectly before removal. The second engine has rebuilt head, bearings replaced and is a quick rebuild.
Oil cooler parts
Weltmeister Rear Bar
Koni Shocks
Extra set of brakes, lots of brake pads
Cut out switch
1 aluminum and 2 sets of steel Arms (one set is reinforced)
Extra flywheel and Pressure plate
2 hatches
I had originally planned to Lemons the car first and then 944 Spec.
This car can be finished for less than \$1500
The car was tracked recently and everything worked well.
\$2500 OBO

Is car still available? Where is it?

944-SPEC - 944SPEC - low cost wheel to wheel racing Generated: 5 September, 2025, 16:53 Thank you, **Brad Sullivan** ______ Re: 90% complete 944spec car with 2 engines Posted by Tabbasco - 27 Mar 2013 03:11 Yes it's still available, it's in Ft Worth Texas and it has a tow bar so no trailer is needed. Re: 90% complete 944spec car with 2 engines Posted by phlip - 27 Mar 2013 09:42 Hey Tabbasco, please dont forget to return my swaybar parts. Couldn't figure out how to PM so I had to contact you this way. Re: 90% complete 944spec car with 2 engines Posted by msteele - 27 Mar 2013 09:58 Could you please email me at This e-mail address is being protected from spambots. You need JavaScript enabled to view it with your phone number. I'm in Dallas and would be interested in taking a look.

Phil
No worries, I will get them back to you ASAP. I was still trying to figure out the bar situation, supposedly have the steel Armed front Weltmeister bar and mounting plates too!
Todd
