

1987 924s Spec car Project!

Posted by johnsonsl - 02 May 2013 14:44

Selling a 1987 924S project. I bought it disassembled and almost ready to go back together and just don't have the time.

The motor has been resealed, water pump replaced, and belts done. Was cleaned and painted before reassembly.

Same for the transmission.

Comes with turbo suspension and one set of phonies. Only thing I am missing is the front spindles.

Photos here

Would like to sell all together, but would consider parting after I have the engine sold.

Located in Clinton, OK. Asking \$1500 OBO

Call or text 1-405-633-1197
