

1984 (44 Race Car

Posted by putneyb - 12 Oct 2008 07:49

It has a NASA Race Car Log Book

(serial Number 00478) for 1999. I got the car in Fall 99 and have driven it about 2-4 times a year at NASA HPDEs. It has been maintained by David Modderman and Tony Heyer in Mt View.

It has:

a 1988 front Suspension with a large spindel and easy change rotor plates

Roger Krause , top camber plates

Forged front A-Arms

Weltmeistr front and Rear sway bars

Rear, 28mm torsion bar

Euro Alternator B=racket

Roger Krause Baffled oil pan

Accusump

Foam Filled Fuel Tank

Limited Slip transmission

Race Steering wheel

2 racing seats, 1 with back support.

Bolt in Roll Cage with Welded side bars

3 BBS Wheels and 3 Phone Dials

I have replaced:

Radiator,Front Struts (Bilstien),Headers
