

WTB: Short 5th

Posted by Manuel_M - 28 Jul 2013 17:08

Hey Guys, my trans-axle is leaking and since I have to work on it I might as well drop the short 5th in too; however, I've been searching the interwebs with no luck. Does anyone have an extra short 5th for sale or can point me in the right direction?

Thanks, Manny

I might know a guy. Email me directly and I'll give you his contact info. I'm not sure he would want it on the 'net.

Ask around some of the Turbo guys. I think they like to trade the short 5th they got for the tall 5th we get.

Not to be the bearer of bad news but I have been trying that for some time. No bites at all....

I was actually going to buy turbo boxes and convert them and then sell them complete so I could get some short 5ths but ended up finding one and gave up on that idea (at least for a while).
