ups is crazy expensive. I have shipped by Greyhound and I just spoke to them. They have "package Express" if I ship from Baltimore and provide Greyhound with your name, and I provide you with the tracking number, you follow the shipment via Greyhound and upon arrival to the Greyhound Bus terminal in Ujunga Ca, and your ID. you can pick up the wheels. For 8 rims, me dropping off and paying for shipment total your cost is \$500.00 This is for 8 last offset 15x7 phone dials four painted yellow, 4 painted blue, ALL NEED PAINTING. These are in perfect condition, used on my sons 87 944 spec raced in NASA Mid Atlantic region for the past three years. I have 4 more rims and 4 rims with tires and as you know they are priced great. Let me know, Tom J
