AIM Data System for sale Posted by Sterling Doc - 09 Feb 2016 20:09	
Putting my AIM data system up sale with lots of extras.	
Smarty Cam GP (bullet cam, non-HD model)	
NyChron 3 Gold Dash	
Pata Hub	
Channel Expansion Hub	
patch cables	
RPM Harness	
linear shock pots	
Shock pots would need to be wired in. I did not use them, but did verify that they change resistance wnovement.	<i>i</i> ith
Cost to duplicate the entire system new is over \$4,000	
2,000 takes it all.	
would consider a Traqmate for a partial credit in trade.
