

12Qt Coolsuit System - SOLD

Posted by BritRacer - 13 Mar 2017 14:33

I used this system only one race weekend. It is the 12qt club system and includes cooler (with pump), maintenance additive, tie down strap, 8ft hoses and large white shirt.

The system without the shirt is \$268 new. I am asking \$150 + shipping for the complete system.

whatever is the most cost effective, im not in a hurry for it.

Thanks!

Sorry for the delay getting this for you, I had a loss in my family. The cheapest looks to be UPS Ground @ \$22.00 (total \$172). If you email me at jpjane at live dot com. I will provide you with my PayPal account and you can send your address etc more securely.

Thanks, Jason
