## Track Records Database Posted by AgRacer - 10 Oct 2012 10:36

Do we have a compiled database for track records around the country as run under the 944 Spec ruleset? We think there was a new record set at Eagles Canyon Raceway last sunday but there was no previous record held. I understand that anything we compile is going to be rendered null once we transition to the new tire, but it could set a good benchmark for new guys coming in as well as further development. I may see what I can dig up for fast times in the Texas Region for future reference.

Eagles Canyon Raceway	2:08.320	Ryan Peterson	7 OCT 12
Hallet Motor Racing Circuit	1:32.570	Jeff Knight	12 JUN 11
Motorsport Ranch Cresson 1	1.7: <b>27C318</b> 1	Philip Fromme	17 MAR 12
Motorsport Ranch Houston 2	2.385 <b>C66</b> 78	Alvaro Fernandez	29 JAN 12
NOLA Motorsports Park Texas World Speedway 2.9	TBD C2C <b>013</b> .847	TBD Ryan Peterson	27 NOV 11
Texas World Speedway 2.9	C2M05.129	Alvaro Fernandez	6 AUG 11

## Re: Track Records Database

Posted by AgRacer - 23 Jan 2013 18:21

New updates to the Track Records database for Texas.

Motorsports Ranch Houston 2958 CW		Phil Hanson	1:51.802
NOLA Motorsports Park	956	Phil Hanson	2:07.022

Should have a lot more of these to come with the new RRs. We ran RA1s on Saturday and RRs on Sunday this past week end. Easy  $\sim$ 1.5 seconds a lap difference.
