Great stuff! No mistakes in very difficult conditions - really well done!

Great heads up move not to collect me in the first turn! I knew it was close, but not that close!

Yes great videos from the incar cam.

Racing in the rain takes lots of skill and patience. Tyler showed lots of both at Nationals.

Rain is a HP equalizer, it would be better to have a lower HP car in those conditions.

It would be interesting to see what the other lap times are for higher HP cars on that track in similar conditions.
