

## What track configs are we running?

Posted by Weston - 25 May 2008 07:02

---

I remember hearing something like we'd be running the outer course one day and the full course the other day, but I can't find the post.

Which track configuration are we running on each day?

I've never been to Miller before, and I probably wont be able to drive on Friday, so I need to know what the plan is so that I can prepare myself as much as possible...
