

seat install

Posted by deadeyeb - 15 Mar 2009 04:11

i just picked up a kirkey deluxe road seat and wonder if there are any secrets to mounting it in these cars. i was going to cut the original mounts out and install some doubled 1x1 tubing to the floor with plating on the sill and tunnel. any help will be appreciated. i would like to get seat in to set my belt bar height

Hank at www.hanksvillehotrods.com welded in a brace to my floor for seat and antisubmarine mounts. Its not the easiest thing to do but I feel much safer having done it. I think Hank has/ is working on a kit to sell for this.
