Located at www.kevingosselin.blogspot.com

Click on the pics to make them really large.

Getting very close...

Looking good. Nice reuse of the OEM gauges in the dash. How's the visibility with the steering wheel on?

Re:Build updates and pics...

Thanks.

I can see the gauges fine with the wheel on. There are one or two angles where the sun causes a bit of glare but not worth putting a shield on to block it.

Reusing the gauges is saving me some cash this year. Ultimately would like to completely remove all wires and start from new including gauges.

I am driving the car now. I took it to work.

I will be putting some miles on it.

My plan is to do a lapping day at HPR in the next few weeks, then work with Chuck to do comp school and race in August.
