Is there intended any discussion of possible changes for the coming year (2011)?

John

We're taking some time to hash out the significance, and precision of the Traqmate as a tool in rules compliance before we bring options to the table. Nothing will be implemented (if anything) before there's a public discussion, input taken, and questions answered.

How many cars in 944 had a traqmate? I know mine did, just curious.

Hi Rick, sorry about your engine at Nats.

You were a contender for a podium finish IMO.

I was asking about the NASA supplied Traqmates. I had one in my car for 944 and GTS1.

Anyone else?
