Invitation-944-Spec cars can run SP1 in PCA/944Cup

_____

Here is the 944Cup South schedule for 2013. All events are PCA sponsored. I will be entering a 944 SP1 car in most of them. I also plan to enter most of the NASA 944-Spec events. We will be entering as a team (T&H Racing) and one of out Team members will run the Spec-944 in each event. I will share driving with Bob Hahnemann and Paul Hockman (when he gets his comp license) We will also enter my GTS2/SP3 car in these events.

Wow, that took a lot more words than I expected.

The net of it is that you are all invited to run our 944Cup events. PCA will grant you a comp license base on your NASA license and medical form, you also have to join the PCA. There are some great venues for 2013, but the registration fills up fast.

Please contact me with any questions. I hope to see you at some of our events.
