The Southeast vs. Midsouth Barber Race Thread
Posted by Brian Evans - 22 Jan 2014 13:46

_____

Even though I will have to be watching this one from the paddock I feel obligated to instigate some side bets on the outcome of the first "Official" NASA Southeast vs Midsouth 944-Spec showdown at Barber in February.

So... how about some ideas? Losers wash the winners cars in the paddock at the next Road Atlanta event? Or buy the beer on Beale Street next time in Memphis?

Let's hear some ideas...

Brian,

We should have 8 cars racing by our June 28-29 event at Memphis. We would like to have the Southern 944 Spec Shoot-out at the event and get some good prizes. Will be a nice tune up for the Nationals. How many of the SE gang would come?

Shawn

I'm in-I bet we can get a good group going.

I wouldn't be able to go to Memphis that week end. I'm already registered for the RA event that month and I have a big training event going on the 2.5 weeks after RA encompassing the Memphis race.
