

The Final Lap 2016 - NCM - October 22-23

Posted by AgRacer - 04 Oct 2016 05:08

Who all is planning on going to this event? This was a last minute add on to the schedule after the 2016 season was advertised and is kind of squeezed in between two events.

The track is located in Bowling Green, KY, which is a good drive for most of us in the SE. Some of us have already been there when the last event was hosted as a crossover between the MS and GL/MW. This event is a cross over between the SE and GL/MW. It will be the final event of the year for our friends in the north so they will have the awards banquet just in time for winter to set in and snow to barricade the garages.
