

## 2014 Texas Area Season

Posted by Timwold - 04 Nov 2013 12:03

---

It looks like PCA has 50% of the 2014 season posted and NASA has its complete schedule online as well. PCA will have 5 "local" races; March TWS, April COTA, May NOLA, October MSR Cresson, and October Hallett. There is some overlap with conflicting dates with NASA.

I think it would be a good thing for the series for people to communicate where they intend to race. We can try to maximize participants. The local racers I know of are:

1. Todd Imwold
2. Steve Coomes
3. Greg Hutmacher
4. Mark Steele
5. Lisa Steele
6. Bill Georgas
7. Phil Hansen
8. Jose Avala (Austin)
9. Kevin Mitchell
10. Steve Coomes Rental Car
11. Chuck Frahm

Non locals who run in Texas

12. Chris Blazer
13. Julie Bailey
14. Terry Morris
15. Chris Blazer rental car

Who am I missing?

I intend to run the 5 PCA events and a few Saturdays for local NASA events.

Todd,

I hope to see you all at TWS, COTA, and MSR for sure! I think you've got a pretty good list of the PCA regulars.....

Bill Georgas

There's another build in progress by a guy that I was stationed with there at Hood. I have no idea how far along he is, but I know he has an account on here so hopefully he will chime in.

I'm in for TWS, COTA, and Hallett. Hopefully Cresson too.

Greg Hutmacher

Hey guys sounds like if we were to get together on our dates we could have some good turn outs this is where I'm planning on going

NASA Houston

NASA cresson maybe

Pca tws

Pca COTA

NASA hallet

That's all the further I've got planned could someone let me know who to contact for pca tech

Thanks Phil

Phil-

You can get your log book on the Friday during a race weekend. Just let the race director know you will need one. It is best to have a shop check it over prior to make sure it is PCA compliant. I would think your car is.

To get a license go to the PCA website (PCA.org) and the forms are there. Susan Shire is in charge of licenses and she is very easy to work with.

Anything else let me know.

we should have double digit numbers for the PCA TWS race.
