Greetings!

Round 3 and 4 of the NASA Midwest 944 Spec season took place June 20-22 at Gingerman Raceway and July 12-13 at Blackhawk Farms. The weather was exceptional both weekends, as were the camaraderie and racing.

Gingerman – June

A 10 driver lineup contested the Gingerman weekend after most participated in a full day test and tune on Friday. As expected, the racing was close. Neal Agran prevailed in the first two races of the weekend, while Dan Pina held off a charging Gary Barton and Agran in the third. The best battles of the weekend were Tara Brewster and Ken Frey's fight for 7th in race #1, Barton nipping Pina for 2nd in race #2, and a three way battle for the lead in race #3 following a fantastic inverted start (see video below).
